

True Cleaning Solutions has over ten years in the industry serving residential, commercial, industrial, and health care clients. Brooks Ingrassia ASCS/ VSMR / CVI was one of the original employees and handles all day-to-day operations for the company. Together Brooks, along with business partner Ben Allison, have grown the business to a staff of 15 specializing in a variety of indoor air quality services. Aydan Kahamann ASCS / VSMR was hired by Brooks in 2018 as an assistant technician. He replaced Brooks as Commercial Projects Manager in late 2020. Aydan manages all large commercial, industrial, and healthcare projects from start to finish. This includes air duct cleaning, AHU/RTU Cleaning, internal fibrous insulated duct resurfacing, and drain pan coating projects. Aydan's most notable project was a federal project for Navajo Nation in Red Meza, AZ. Today Ben, Brooks, and Aydan are focused on growth in new markets, developing new leaders within their teams, and creating amazing results for their clients.

Medical Offices

Applicator:

TCS Indoor Air Quality Solutions
