

Para-Link™ Bracket

For Parallel Action Dampers
Multi-Blade Damper Hardware

FEATURES AND BENEFITS

- All multi-blade brackets are also available in stainless steel
- 16 gauge steel precision stamping, zinc plated
- Thin, streamlined leading edge on heavy duty steel stamping minimizes airflow resistance
- Brass Pivot, Steel "Slider" and Special Design Stainless Steel Taper Spring allows for self-alignment
- Unique connecting rod clamping assembly uses a special COMPRESSION RING/JAM NUT (7/16-20)
- The connecting rod is not mutilated as with set screws
- Minor readjustments are easily made since the connecting rod remains smooth
- The clamping assembly has two to three times the holding power versus traditional set screws
- Uses one high bracket
- Self-adjusting
- No-bind slider has 7/16" thread and special-taper "no rattle" stainless spring
- Locknut can be set with a standard 11/16" box or open-end wrench
- Same high bracket can be used in conjunction with a low bracket for opposed action dampers.

For many years, various damper hardware producers have copied the original Honeywell multi-blade damper hardware designs with some interesting, but often questionable innovations. The basic dimensions and concepts have remained unchanged, but successful improvements have also occurred.

Years of experience in designing and manufacturing this hardware has led DynAir engineers to a simple yet progressive approach, use one high bracket instead of two, reducing parts inventory and saving contractors time and money. Parallel action dampers have traditionally required a special high and low bracket. This is no longer necessary; only two brackets are needed for all normal dampers. The Para-Link Bracket assembly is a tough performer and a system of fully dependable hardware. It is self-adjusting and has a narrow leading edge to minimize airflow resistance. Plus thanks to a unique connecting rod clamping assembly using DynAir's compression ring/locknut clamp the connecting rod is not mutilated as with set screws.

PART NUMBERS	PRODUCT DESCRIPTION	QTY.
307928	PARA-LINK BRKT MED 1/4" (PLB-14)	100/Case
307944	PARA-LINK BRKT SSTL MED 1/4" (PLB-14SS)	25/Case
307942	PARA-LINK BRKT MED 1/4" W/ LONG SLDR (PLB-14L)	100/Case
308299	PARA-LINK BRKT (HI) SSTL 1/4" LONG (PLB-14LSS)	25/Case
307927	PARA-LINK SET PARALLEL BLADE (DK-50)	50/Case
